

IT IS TO BE "short horse soon carried" with this session of the Legislature, and it is probable that some important measures will be overlooked. The matter of inducing immigration from the United States is one that should have the attention of the members without much delay. The more people that are here permanently the better will be the business of every store keeper on the islands.

A good farmer is worth something to the store keeper who sells honest goods at low prices, that's us. We are offering ribbons all widths at prices that actually make us ashamed to tell you what they are. The coats of our rivals turn green with envy when they hear of them. We have them in every conceivable shade.

Our stock of underwear has never been equalled, much less excelled in either quality or price. It is absolutely the best at what you pay for a second or third class article. It was only by chance that we secured the stock of a well known dealer in San Francisco, (overstocked was his excuse for disposing of it), and as we got them far below the market value we are enabled to give you the benefit of our good luck. They're going rapidly, these suits, and you must speak quick if you want them.

If you are thinking about getting a riding or bicycle suit you had better look into our ladies, cloth and serges. The quality is right and so is the price. All shades and desirable widths.

with a sufficient amount of naughtiness about them to give them character and make them downright attractive. Great Scott! He has found it out. Never was nail hit fairer and squarer plumb on the head. By all means let us have this lot, pass them right along, this half million of good fellows and lively women with their brains their culture and their MONEY. How in thunder did we ever come to miss taking stock of this requirement before? What do we all must be! Oh be joyful all ye lands! Well may we cry, "Eureka!" Here we have been fooling away our time on Japs and Portuguese, and never seem to have thought of that half million of wealthy people of refinement, culture, sense and cash, who it seems are to be got here without trouble beyond the asking. Once again let me say, "Pass them right along." May we ask where in this wide world are they?

It is to me something perfectly miraculous how members of the genus "blatherskite" will roll off a steamer on to these shores and tell us all about ourselves, our country, our wants, and our prospects, inside of five minutes after they have landed, but I suppose it comes easy to them after some practise, and that they have as much faith in themselves as they would like others to have in them. I am afraid, however, that they would fall terribly, even in their own estimation, if they could only realize for a moment how very little their views and opinions are considered by those who read them.

Before closing my remarks on the particular P B who airs himself in this morning's Advertiser, I would like to ask what the sense of the opinion given on the Durrell case is? We are told the P B aforesaid is "a learned visitor," so I presume he will not mind giving another interview in which he might explain what it is the President of the United States should do when a citizen of the United States is outraged in a foreign country. Would it be entirely satisfactory to the learned visitor if the President of the United States on reading this morning's Advertiser was to say that the opinions published in the newspaper, with which the future Hawaiian Minister is so intimately associated, had found favor in his eyes, that he repented of having made any attempt to set right the injustice done to a citizen of the United States, and that Mr. Durrell and any one like him in any other part of the universe may go to the dickens for all the President of the United States cared? The head of the United States cannot with justice be called "malicious," "discourteous," "ill-advised," "politically depraved and licentious," because he interferes to protect a citizen of the country at whose head he finds himself when that citizen is suffering under a grievous injury inflicted in a foreign land and by a foreign government. But who can tell where we are, or what is right and what is wrong? The only way to be sure that we do not fall into error, and form wrong ideas of our country, our business, or the duties of foreign powers is to keep a Professional Blatherskite like the "learned visitor" always on tap, so that any question requiring prompt elucidation, or any future requiring to be foretold might be attended to without delay, and thus the Hawaiian islands would float away out on an endless sea of everlasting prosperity.
